

Iambi Secondary School Needs List

A partial list of currently known needs:

- **Bed Nets:** Bed nets, at minimal expense, significantly reduce the rate of malaria and other diseases.
- **Electricity:** Bethlehem's May Mission Project is to provide funds to prepare the Iambi Secondary School for electricity so that they are ready when power lines are completed to the region.
- **Education for Educators Scholarships:** This program through our synod is the September Mission Project. Few teachers in Africa have a college education. This fund provides scholarships to help educate teachers who then return to teach at Iambi Secondary School.
- **Letter Writers:** Youth and others are encouraged to write to the Iambi Secondary School, at P.O. Box 685, Singida, Tanzania. This is an opportunity to form a relationship and to get to know someone from another culture.
