2 Drawer File Cabinet

A 2 drawer file cabinet would be an essential tool for organization, record keeping, and privacy used in the office of our Children & Family Ministry Director's office.

Currently, there is no file cabinet available for this use. All files and paperwork are stored in the CRM Director's unlocked desk and room is limited.

The file cabinet we are requesting is a Commercial-grade, 24-gauge steel cabinet featuring full-extension drawers, and cam lock securing both drawers (2 keys are included). MBI® 22" Deep File Cabinet; Black
